JUNIOR SOFTWARE ENGINEER

As a skilled junior software engineer, I have extensive experience in web and mobile development. I specialize in building web applications using React.js and developing mobile applications with React Native for both iOS and Android platforms. Additionally, I am proficient in using Node.js for backend development. My expertise in these technologies enables me to design and develop robust, scalable, and high-performing software solutions that meet clients' specific needs. With a strong focus on quality and efficiency, I am dedicated to delivering top-notch results while adhering to project timelines.

EDUCATION

BSc Computer Science | University of Ghana

2019 – TO DATE

General Science | Ghana Secondary Technical School

2016 – 2019

EXPERIENCE

Junior Mobile Developer(intern) | Afrolynk Space

OCT, 2021 – DEC, 2021

During my internship, I worked on various projects that involved designing and implementing complex UI components, integrating third-party libraries and APIs, and implementing data management and storage solutions. I have also gained expertise in debugging and testing applications to ensure they function correctly and provide a seamless user experience.

Web Developer (Internship) | Creation Unite

MARCH 2022 – JULY, 2022

I have gained valuable skills in developing and designing high-quality websites. During my internship, I worked on several projects that involved building user-friendly interfaces and implementing responsive designs that adapt to different screen sizes.

Marketer (Internship) | Zenith Bank Ghana (Takoradi Harbour)

SEP, 2022 – OCT, 2022

My experience working with senior marketers has allowed me to develop skills in market research, developing marketing plans, and executing marketing campaigns across multiple channels. I have gained experience in using various digital marketing tools

Web Developer | Ampe Digital

OCT 2022 – JAN, 2022

Building a website for a client as a web developer intern using WordPress was a great learning experience. I had to use my problem-solving skills to troubleshoot issues that arose during the development process. I also had to ensure that the website was responsive and user-friendly.

Overall, it was a challenging but rewarding project, and I am proud to have been able to complete it successfully.

SKILLS

- React Native
- React Js
- Node Js
- Wordpress
- Cross platform mobile development

Projects

Disaster Reporting App – React Native

Laundry App – React Native,redux & Firebase

Food Around – react Native Redux & Sanity

AfroHook – React native,Typescript , redux, firebase , node js , Express js & Mongo Db

Church App – React native, redux & firebase

Ride hailing App(flint) – React native

Clothing Store(web dev) – React js & Sanity

Law firm website – React js

Isada Home Depot (Web App) – wordpress

Currently working on Pharmacy App

- Admin
- Customer website
- Customer mobile app
- Backend (Node js)
